The data on this site provides only public record information and is intended for your personal use only. Our data should not be relied upon to determine an individual's actual criminal record since the offense listed is sometimes generic and could represent several different charges. Assumptions should NOT be made solely on the offense displayed on this web site. Our data includes more than criminal records, such as civil filings and traffic and other minor offenses, so people listed may not be actual criminals. Also, not all criminal records result in conviction, nor do they all provide dispositions of guilt or innocence. Expunged or sealed records will be removed from the site once we receive notice of the same from you. In order to provide you the most comprehensive search experience, from time to time we may buy data from private data providers. Charging decisions made by the State Attorney's Office or from the outcome of criminal trials should be obtained from the source.
