TB got his start at a Big T game in Little Rock, Arkansas. From there he ventured down to Viper's Starcraft game and got a first hand introduction to scenario paintball. He has been playing ever since, and loves the sport. Known for his 'in your face' style, he is both liked and hated, sometimes at the same time. He ventured to the Northeast in 2003 and with the help of some great teams took on the unbeatable team, RTD and won. TB was the publisher of Scenario News, the only magazine dedicated to scenario paintball. TB was one of the main reasons that AGD decided to sponsor a scenario team with over \$30,000 marker package.. He has also served as the Scenario Editor for Paintball 2 Xtremes and has been published in several other national magazines. TB now spends his time with his new team, plotting for ways to take over the game when he hits the field.
